COMO
LAUCALA ISLAND

Laucala Airport
Fact Sheet

COMO Laucala Island

Cakaudrove, Vanua Levu, Fiji Islands

Size: 12.2 km2 (3,000 acres) by 5 km (3.1 miles)
Terrain: Volcanic, rainforest, mangrove, beach

Our island has a day-operated, grooved, apron concrete airstrip with runway and taxiway lighting, illuminated windsocks adjacent to the runway threshold and Precision Approach Position Indicator (PAPI) lights.

International arrivals may land at Laucala Airport at additional cost. The cost will cover customs, immigration and quarantine clearance, to be arranged in direct liaison with the COMO Laucala Island reservations team.

Laucala Airport

Coordinates: 16° 44.494’ S, 179° 40.928’ W
Frequency: 125.70 MHz
ICAO Code: NFNH

T. +679 888 0077 **F.** +679 888 0099

Laucala Island Airstrip

Length: 1,141m (3,743 ft)

Width: 23m (75 ft)

Maximum take-off weight (MTOW): 40 tonnes (80,000 lbs)

Runway direction: RWY 35 / 17; RNP-approach from both directions

RWY 17 TORA/TODA/ASDA
1,141 m x 23m
Elevation: 3.048m (10 ft)

RWY 17 LDA
1,129m x 23m
Slope: NIL

RWS WID 70m, SWY 30m

RWY 35 TORA/TODA/ASDA
1,141m x 23m
Elevation: 1,524m (5 ft)

RWY 35 LDA
1,129m x 23m
Slope: NIL
RWS WID 70m, SWY 30m

Suitable aircrafts for landing at Laucala Airport

- Mid-size Business Jets
- Turboprops
- Piston Aircrafts

E.g. Falcon 900EX, Gulfstream 450, Embraer Legacy, ATR 42, and Hawker Beechcraft B200 / B300, Bombardier Challenger

Private aircrafts that do not fit Laucala Airport requirements must land at Nadi International Airport (NAN). Commercial travel into Laucala Island also entails a flight into Nadi International Airport (NAN) before a connecting flight to the island.

Operating airlines at NAN currently include: Fiji Airways, Qantas, Air New Zealand, Virgin Australia, Jetstar and Korean Air.

Laucala Island has its own lounge at the airport where guests may wait with refreshments and receive assistance by Laucala Island staff.

Flights from NAN into Laucala Island are 50 minutes and will be arranged on King Air B350 planes with eight leather seats and twin-engine turboprop machines.

Aircraft ground services

- Aircraft parking
- Aircraft towing
- Passenger and baggage handling
- Maintenance and engineering support from FAA and CAAF licensed Engineers
- Aircraft cabin cleaning and exterior washing service

Available resources: 28.5 Volt GPU, aircraft potable water, lavatory service, oxygen, nitrogen, and consumables available

Laucala Airport does not provide fuel services. Long-haul flights may refuel at Nadi International Airport.

Emergency Services

- 24-hour security
- Professional fire-fighters
- Medical team

Hangars

Laucala Airport has four small hangars. Hangar One can be utilized as a nose dock for mid-size business jets. Smaller jets and Turboprops can be partially enclosed inside all hangars.

Catering

Our chefs can cater for all departing guests according to preference or dietary requirements.

Biosecurity

Laucala Island is an official biosecurity area and former quarantine station.

Air Traffic Controls

- Nadi Tower 118.1
- Nadi approach 119.1
- NFNH 125.7
- NFNM 122.9
- Nadi FIS 126.7
