COMO Next Generation

Play by COMO delivers personalised family experiences at COMO Parrot Cay. More than just a children's space, Play by COMO ensures that the whole family, even our youngest guests, enjoy COMO's signature service, design, cuisine and approach to wellness. Children are encouraged to enjoy purposeful and creative play, both at the dedicated Play by COMO space, and around the island – under careful supervision of our child-care experts. The thoughtfully planned schedule has been designed to inspire children aged four to 12 with activities that capture their imagination through history, nature, local culture and science.

Play by COMO also takes care of the other details of a family holiday, from babysitting services to infant and weaning menus, where any food intolerances and diet restrictions can be easily accommodated.

Sustainability and Community Investment

At COMO Hotels and Resorts, we act as custodians, rather than managers, of each destination. We recognise the privileges and responsibilities of being part of the community and are committed to celebrating local culture, supporting the domestic economy and minimising our impact on the environment.

At COMO Parrot Cay, we hope to inspire the next generation of dedicated hoteliers with passion, creativity and style. Over half of our team come to us from Raymond Gardiner High School in neighbouring North Caicos. Through this partnership with the school we are able to support the local youth by offering educational and employment opportunities.

We are passionate about preserving the island's natural habitat and allowing the island's rich ecosystem to thrive. Approximately 85 per cent of the 1,000-acre island has been retained as marine wetlands and mangroves to provide a pristine habitat for the native wildlife, including Great Egrets, Brown Pelicans and Brown Anoles.

At COMO Parrot Cay, we have our own coconut grove and banana farm which supply our kitchens with fresh produce. Not only does this mean we have access to the finest local ingredients, but it also ensures that these native species are protected. Freshly caught fish from the surrounding Caribbean sea is also delivered daily and features across all of our menus.

An aerial photograph of a person walking on a sandy beach. The person is wearing a white shirt and dark shorts, and is carrying a white bag on their head. They are walking towards the water's edge. The waves are breaking on the shore, creating white foam. The water is a clear, light blue-green color. The sand is a light beige color. The overall scene is peaceful and scenic.
