## Activities and Excursions

### **Water Purification Ceremony at Tirta Empul**

Take part in a traditional Balinese purification ceremony at the historic Tirta Empul temple in north-east Ubud. Your guide will take you through every step of the Hindu purification ceremony in this 1000-year-old temple: making and presenting offerings, traditional prayers, dressing in temple attire and the holy water rituals.

### **Tampak Siring Biking and Culture Tour**

Begin your experience at the stunning vistas of the terraced Ceking rice fields, then cycle on to Tirta Empul. This temple dates back to AD 926, built on a site where springwater naturally bubbles up through the Earth's surface, and a popular location for purification ceremonies. From here it's an easy cycle downhill to Ubud, through some particularly striking local villages.

### **Sightseeing in Tanah Lot**

Tanah Lot is made up of sea temples standing on tide-shaped rocks on the west coast of Bali. This holy site is a popular place from which to see the spectacular sunset. According to lore, these sea temples were built by priest Nirartha, who asked a poisonous sea snake to guard the holy temple.

# Sustainability

At COMO Hotels and Resorts, we are mindful of our impact on the cultures, economies and environments in each of our locations, in line with our commitment to operate responsibly as stewards of each destination for generations to come.

COMO Uma Canggu is committed to supporting and contributing to the local economy and providing guests with sustainable and authentic experiences. Our kitchens practice a farm-to-table culture wherever possible, serving sustainable and locally sourced ingredients in a bid to support local farmers and reducing carbon footprint. Excess food is allocated to orphanages, providing an opportunity to connect surplus food with people who need it.

We also partake in the Nespresso recycle scheme which supports sustainability by recycling aluminium capsules. Compost produced from the coffee dregs is used to fertilise our plantations. By partnering with a local charity, we are also able to recycle soap and bottle our own water in reusable glass bottles, allowing us to exceed the World Health Organisation standards for potability.

Outside of our premises, we are honoured to support the Breast Cancer Organisation which aims to help detect and facilitate the treatment of women in remote areas.
