COMO
PARROT CAY

EXPERIENCES

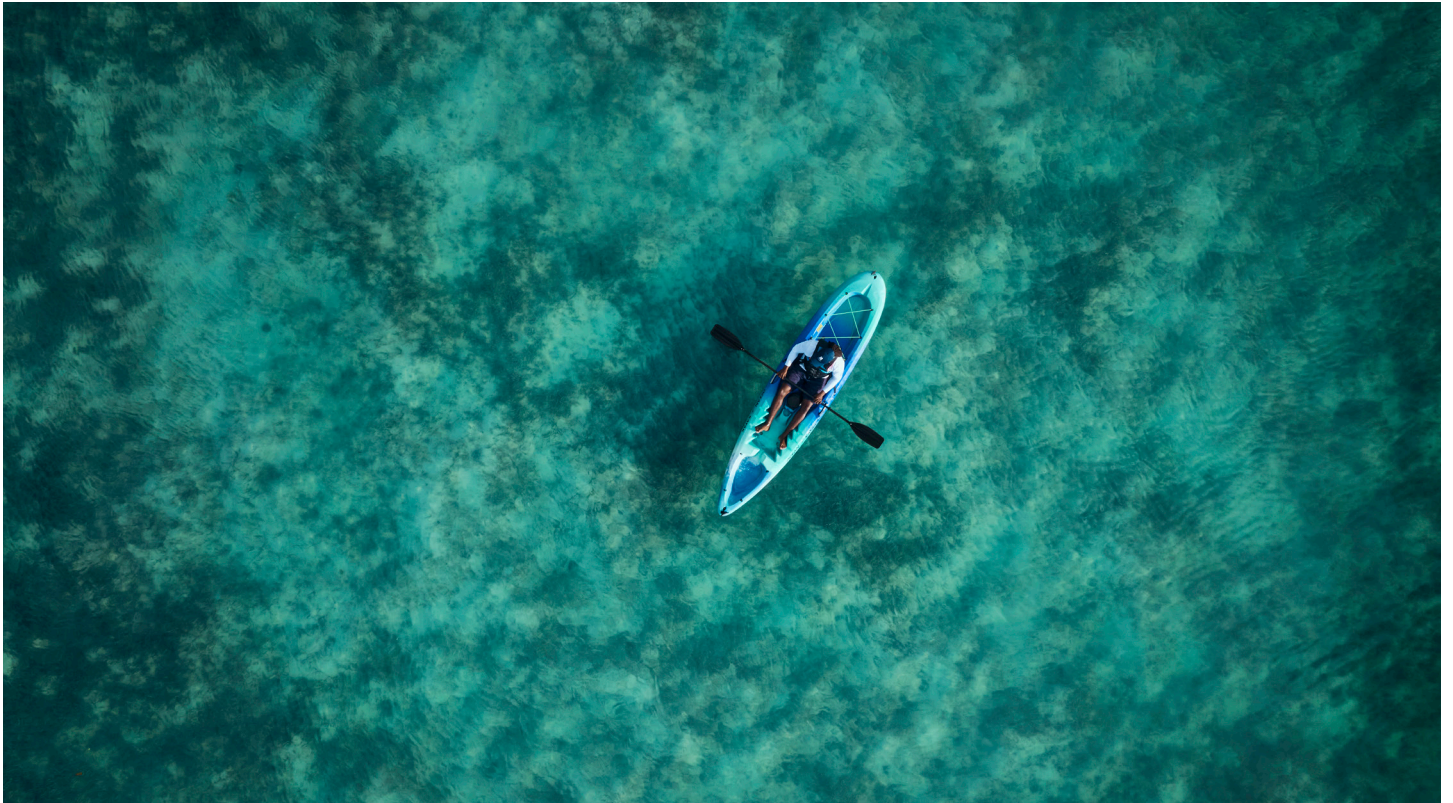

COMO Parrot Cay is located on a secluded private island in the Turks and Caicos — a safe, well-placed base from which to explore the wonders of the northern Caribbean. Our dedicated Experiences Team have prepared a large panel of activities in order to highlight the best of the Turks and Caicos Islands.

Experience the best of the Turks and Caicos Islands with our dedicated Activities Team.

COMO

PARROT CAY

EQUIPMENT HIRE

Explore COMO Parrot Cay at your own pace with our equipment hire. Non-motorised water sports activities are complimentary at COMO Parrot Cay, including the use of a mask, snorkel, fins, kayak, and catamaran (without a guide), a stand-up paddleboard (SUP) and all windsurfing equipment.

For those who want to go a bit faster, our Hobie Wave catamaran is the perfect choice. Meanwhile, the Hobie Cat can be sailed by novice sailors due to its stable dual hull. Snorkelling equipment is also available so that you can explore the Caribbean ocean where sand dollars, conch shells and tropical fish are easily visible in the crystal-clear water.

Kayak	Complimentary
Stand-Up Paddleboard	Complimentary
Windsurfing (for experienced windsurfers)	Complimentary
Catamaran without guide (after a successful check sail)	Complimentary
Catamaran with guide (maximum three guests)	US\$80 per 30 minutes US\$130 per hour

LAND ACTIVITIES

BIKING

With the beautiful Turks and Caicos island weather, biking has never been more enjoyable. Discover our private island by bike, on your own or with a guide. From the Boiling Hole to the meditation hut, the coconut grove, our beautiful little paradise will keep no secrets from you.

For adventure-seekers, the vibrant island of North Caicos is adjacent to COMO Parrot Cay – only a few minutes by boat from the resort. North Caicos is commonly known as the ‘Green Island’ due to its abundance of plants and lesser development, reflecting the old tropical way of life. Setting off via electric bike, you can explore the historical Wade’s Green Plantation, experience the local animal and fruit farms and learn about the Caicos Pine Tree project. You can also head down to the coast to explore the remote beaches, bird ponds and bountiful nature reserves in the area.

Level of difficulty

WATER ACTIVITIES

DIVING

The Caicos islands are surrounded by pristine reefs with some of the richest marine life in the world. In some locations, the reef wall drops steeply several thousand feet, making for an especially biodiverse marine habitat where you are likely to see sharks, rays, lobsters, fish and turtles. All divers are required to hold an international SCUBA diving license which you will be asked to provide, together with your logbook.

For those looking to get certified, we have a number of diving courses available through our preferred partners.

North West Point – Just off Provo, this wall starts at 11 metres/35 feet and plunges to more than 900 metres/3000 feet. This area is a collection of different dive sites: full of hard and soft corals, schools of barracuda, horse-eye jacks, lobster, crabs, angelfish and numerous other species of fish.

West Caicos – West Caicos is an uninhabited island southwest of Provo known for its pristine walls and frequent pelagic visitors. Offering several amazing dives, the walls here are covered with barrel sponges, staghorn corals and the occasional giant orange elephant ear sponge. Grunts, snappers, groupers and schools of blue tangs all call this area home.

Grace Bay and Pine Cay – On the north side of Provo, protected by a long barrier reef, the marine life in Grace Bay is spectacular. Dive sites here consist of small walls with deep coral canyons that start at 9 metres/30 feet and drop down to 30 metres/100 feet. Groupers, barracuda, grunts, snappers, turtles and pregnant reef sharks are common sights.

French Cay – A small inhabited island south of Provo, French Cay has 2000-metre/6000-foot vertical wall drop offs all around. Eagle rays, schools of reef sharks, sea turtles, nurse sharks and moray eels are frequently seen. Manta rays, hammerheads and humpback whales occasionally swim by.
